

MA. ADELA ARENAS

Applied Physics Graduate (Health Physics)

Naic, Cavite | (+63) 936-746-5202 | maadelaarenas@gmail.com | linkedin.com/in/mearenas

PROFESSIONAL SUMMARY

Dedicated Applied Physics graduate with course concentration in health physics and volunteer experience in teaching and administrative roles. Passionate about research for the interests and benefits of the Filipino community. Currently actively exploring career opportunities in data analysis and visualization and physics applications to research in health and safety.

WORK EXPERIENCE

Department of Science and Technology – Philippine Nuclear Research Institute (DOST-PNRI) Quezon City, PH

Student Intern and Researcher July 2023 – Mar 2024

- Conducted daily experimental measurements of gamma and neutron radiation as an intern and thesis advisee of the institute, collecting data for research and training at the Philippine Research Reactor-I.
- Evaluated neutron radiation doses in the radiation therapy (RT) facility of the Philippine General Hospital in collaboration with PNRI scientists and PGH medical physicists, for the radiation protection of RT patients and staff.

Immaculate Conception Parish Naic, Cavite, PH

Church Volunteer/Facilitator July 2017 – June 2024

- Organized weekly religious classes and forums across seven towns in the province of Cavite, guiding 30-60 participants each session to promote community involvement and personal growth.
- Sourced and distributed food and supplies through quarterly feeding and school supply programs provided to local families in need.

EDUCATION

University of the Philippines Manila GWA: 1.33

Bachelor of Science in Applied Physics, Major in Health Physics | Honors: Magna Cum Laude Sep 2020 – July 2024

- Recipient of College of Arts and Sciences, Dean's Award for Outstanding Research 2024
- Recipient of the DOST Science Education Institute - Undergraduate S&T Merit Scholarship, 2020
- Awarded 2nd Place for Oral Thesis Presentation at the 2024 Philippine Conference on Medical Physics, Cebu City

SKILLS

Communication and Training: Public speaking, group discussion (from 10 to 60 people)

Programming Languages: Python, C++, MATLAB, LaTeX

Data analysis and visualization: MS Excel, Word, Powerpoint, Google Workspace (Sheets, Docs, Slides, Forms)

Radiation Research Equipment: Neutron and gamma spectrometric tools and methods, electronic personal dosimeter, and survey meters

PUBLICATION
